

Advanced SAPUI5 Development

Kód kurzu: UX402

This course is designed to give participants the opportunity to gain a much deeper and advanced understanding of the SAPUI5 development framework and overall SAP User Experience design principles and tools for building more advanced level robust SAP Fiori apps. Learners will engage in coding with MVC advanced UI Controls, gain an understanding of basic and advanced data handling techniques, perform application extensibility, and explore advanced scenarios with working in teams via GIT. By way of hands-on exercises, learners will gain practical experience while they build their own SAP Fiori applications using SAPUI5 and cloud-based development tools. These hands-on exercises will also give learners a competitive head start into the framework's more advanced development features. Course based on software release: SAP S/4HANA 2021, ABAP Platform 2021, AS ABAP 7.56, SAPUI5 1.96.

Pre koho je kurz určený

- Application Consultant
- Solution Architect
- Developer
- Developer Consultant
- Enterprise Architect
- Technology Consultant

Čo Vás naučíme

This course will prepare you to:

- Describe the basic and advanced features of the SAP SAPUI5 framework
- Explain the SAPUI5 application architectures
- Perform advanced development techniques
- Experience working in teams with GIT in SAPUI5 projects
- Develop custom SAP Fiori applications using SAP Cloud Platform, SAP SAPUI5, SAP Business Application Studio, and other tools and services available for developers

Požadované vstupné znalosti

Essential

- UX100
- UX400

Recommended

- GW100

Študijné materiály

Príručka ku kurzu firmy SAP podľa programu kurzu.

Osнова kurzu

- SAP User Experience and SAPUI5 Strategy
- MVC Review and Advanced UI Controls
- Databinding review
- Best practices SAPUI5
- SAPUI5 navigation concept
- Implementing Full-screen Application
- Implementing Master-Detail Application
- Working with Messages
- Implementing Responsive behavior
- Extending Standard controls
- Describing custom controls
- Creating Control and Component Libraries
