Cisco ACI - Troubleshooting and Operations

Kód kurzu: DC-ACITOPS

Cisco Application Policy Infrastructure Controller (APIC) provides its administrators wide monitoring, management and troubleshooting tools for ACI. Goal of this training is to familiarize participants with all of these. Additionally, we will emphasise on avoiding common mistakes and problems during early fabric build-up or during day-to-day ACI operations.

Pobočka	Dní	Katalógová cena	ITB
Praha	4	70 400 Kč	0
Bratislava	4	2 910 €	0

30.11.2026	4	70 400 Kč	Prezenčný	CZ/SK	ALEF NULA

Všetky ceny sú uvedené bez DPH.

Formát školenia

As a standard, we implement a full-time course (onsite or ILT *) in the ALEF Training Center. Upon agreement, it is possible to implement the course at the client's premises. The course can also be implemented online (vILT **) via a video conferencing platform - Cisco Webex meetings. Instructor-led virtual training is a combination of the best of a traditional classroom course and interactive training without having to leave your own office or the comfort of your home. Convince yourself of top quality transmission, video calls and effective team collaboration.
Explanations:
- ILT - Instructor Led-Training * - instructor-led training in the classroom. ** vILT (Virtual Instructor-Led Training) - this is a form of distance learning, where the instructor conducts training from the classroom through an online platform to which students connect from their offices or the comfort of their home.

Požadované vstupné znalosti

- Knowledge of basic Datacenter operation concepts
- Good knowledge of TCP/IP stack protocols
- Understanding of basic network troubleshooting
- Knowledge of Cisco ACI solution &configuration

Študijné materiály

Participants will receive access to an electronic version of the study materials.

Osnova kurzu

ACI Overview ACI Management:
- In-band/Out-of-band
- POD policies Cisco ACI Troubleshooting:
- Faults, Events and Audit Logs
- Fabric Discovery
- Access Policies
- Security Policies

- Intra-Fabric Forwarding
- External Forwarding
- VMM Integration Cisco ACI Operations:
- ACI Operation Tools
- ACI Syslog and SNMP Configuration
- Backups, Snapshots, Rollbacks and Upgrades
- Device Replacement
- Object Import/Export
- Configuration Zones
- SmartAccount Licensing ACI 2-Day Operation Apps (NAE, NIR, NIA)

Technické vybavenie

- Nexus 9300 switches in ACI mode, APIC
