

# IBM QRadar SIEM Advanced Topics

Kód kurzu: BQ205G

QRadar SIEM provides deep visibility into network, user, and application activity. It provides collection, normalization, correlation, and secure storage of events, flows, assets, and vulnerabilities. Suspected attacks and policy breaches are highlighted as offenses. This 2-day instructor-led course walks you through various advanced topics about QRadar such as custom log sources, reference data collections and custom rules, X-Force data and the Threat Intelligence app, UBA and QRadar Advisor, tuning and custom action scripts. The course also discusses integration with IBM SOAR. Hands-on exercises reinforce the skills learned. The lab environment for this course uses the IBM QRadar SIEM 7.5 platform.

Pobočka	Dní	Katalógová cena	ITB
Praha	2	28 000 Kč	0
Brno	2	28 000 Kč	0
Bratislava	2	1 192 €	0

## Pre koho je kurz určený

This course is designed for security administrators and security analysts.

## Čo Vás naučíme

- Learn how to create custom log sources
- Discover how to work with reference data collections and custom rules
- Use X-Force data and Threat Intelligence app
- Use the Use Case Manager app
- Learn how to use UBA and QRadar Advisor
- Discover Tuning
- Explore Custom action scripts

# IBM QRadar SIEM Advanced Topics

- Discuss Integration with IBM SOAR

## Požadované vstupné znalosti

Students should be knowledgeable about the following topics:

- IT infrastructure
- IT security fundamentals
- Linux
- Windows
- TCP/IP networking
- Syslog
- Foundational skills for the IBM QRadar Security Intelligence Platform (at least the skills that are taught in the IBM QRadar SIEM Foundations - BQ104 course)

## Študijné materiály

Studijní materiál IBM

## Osnova kurzu

- Custom log sources
- Reference data collections and custom rules
- IBM X-Force Threat Intelligence in QRadar
- User Behavior Analytics and Advisor with Watson
- Tuning
- Custom action scripts
- IBM SOAR integration
