Pre koho je kurz určený

This course is targeted to experienced IT managers, team leaders, CIOs, IT governance specialist.

Course is also suitable for consultants who are aiming to guide their clients through digital transformation driven by DCMM logic and management patterns.

Čo Vás naučíme

Course participants will learn from theory of collaboration inside organisations, fundamentals of complex system theories to managing IT with DCMM logic and new management patterns. Course participants will gain knowledge how to balance autonomy of acting and making decisions where information is not complete, how to adaptively manage through complex chains of activities, how RBA and ADRA is supporting decision making and visualise resource and benefits balances. Course is designed to discontinue perception of colleagues as customers, where Customer Experience is transformed to Collaboration Experience, as inside organisation everyone collaborates.

Related SFIA skills: GOVN – Governance, INOV – Innovation, BUSA – Business situation analysis, FEAS – Feasibility assessment, OCDV – Organisational capability development, PEMT – Performance management, ETMG – Learning and development management, METL – Methods and tools, BPRE – Business process improvement, BENM – Benefits management
