Pre koho je kurz určený

- Security Administrators
- Security Operations Specialists
- Security Analysts
- Security Engineers and Architects

Čo Vás naučíme

This course should help students gain in-depth knowledge about configuring and managing a Palo Alto Networks Panorama management server. Administrators that complete this course should become familiar with the Panorama management server's role in managing and securing the overall network.
Network professionals will be shown how to use Panorama aggregated reporting to provide them with a holistic view of a network of Palo Alto Networks nextgeneration firewalls.

Požadované vstupné znalosti

- Participants should complete the Firewall: Configuration and Management class.
- Participants must be familiar with Palo Alto Networks next-generation firewall management and basic networking concepts, including routing and IP addressing.
